Education

Theem College OF Engineering (University of Mumbai)

B.E in Computer Engineering

Expected graduation date: Jun. 2024

GPA: 8.5/10

Relevant Courses: Machine Learning, Big Data and Analytics, Cloud Computing,
Artificial Intelligence, Internet Programming, Data Structure and Algorithm.

Projects

Blog-Web Application

August 2023 - Sep 2023

Full-stack web application enabling users to perform CRUD operations.

MongoDB, Express.js, React, Node.js

- Developed a high-performance, full-stack web application enabling seamless creation, modification, and deletion of blog posts.
- Tech Stack: MongoDB, Express.js, React Node.js, Axios, Material-UI.
- Features: User authentication and authorization with JWT .
- Commenting system with the ability to add and delete comments.
- Responsibilities: Successfully integrated a resilient back-end API using Node.js and Express.js, bolstered by MongoDB as the database backbone.

Portfolio

Sep 2023 - October 2023

Online Portfolio Built with React and Bootstrap

React.js, Bootstrap, Node.js, Express, Git

- Crafted an interactive online portfolio leveraging React.js and Bootstrap, designed to elegantly showcase an array of projects Utilized state management for a responsive and cross-device user interface.
- Tech Stack: React.js, Bootstrap, Node.js, Express

E-commerce web application

Agust 2023 - Sep 2023

E-commerce Web Application Using with MERN Stack

MongoDB, Express.js, React, Node.js, Redux

- Crafted a feature-laden e-commerce web application employing the MERN stack, granting users the ability to explore, search, and make purchases.
- Tech Stack: MongoDB, Express.js, React, Node.js, Axios, Material UI, Redux.
- Key Achievements: Orchestrated the design and deployment of a secure and efficient Node.js and Express.js backend, overseeing API requests and data management
- Pioneered the integration of the 'Add to Cart' feature, augmenting the user experience throughout the product selection and purchase journey.
- Responsibilities: Engineered a resilient backend server using Node.js and Express.js to expertly manage API requests, ensuring seamless performance.

Skills

Languages:

MySQL, HTML, CSS, JavaScript.

Technologies & Tools:

React.js, Node.js, MongoDB, Express.js, ES6, Redis, AWS

Certifications:

Completed 7 month full stack web development training:

Successfully finished an extensive full-stack MERN Stack training program at DewTown

Completed 1 month web development training:

Successfully wrapped up an in-depth web development course provided by Alvin IT Solution. .

Language

English, Hindi

Extra-Curriculum Activities

Web Development Club:

workshops on front-end development and collaborating on web projects in college. Orchestrating workshops, coding sessions, and events to enhance skills and encourage continuous learning.

Sports: Volleyball (Club Team) - Team Captain - Led the team to the regional semifinals.

Interest and Hobbies: : Writing and Reading Shayeri (Urdu Poetry), Learn New Technology.
